Foreword iv

Introduction v

1 Scope 1

2 Normative references 2

3 Terms and definitions 3

4 Materials 7

5 Fittings 9

6 Elastomeric seals 20

7 Marking 20

8 Packaging 21

Annex A (informative) Method of test of the integrity of a fitting after an external blow 22

Annex B (normative) Resistance to gas constituents 24

Annex C (normative) Constant-strain thermal-cycling test 25

Annex D (normative) Validation of fitting design pressure DPF 27
