

ISO 14531-2:2004-07 (E)

Plastics pipes and fittings - Crosslinked polyethyl ene (PE-X) pipe systems for the conveyance of gaseous fuels - Metric series - Specifications - Part 2: Fittings for heat-fusion jointing

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	2
3 Terms and definitions	3
4 Materials	7
5 Fittings	9
6 Elastomeric seals	20
7 Marking	20
8 Packaging	21
Annex A (informative) Method of test of the integrity of a fitting after an external blow	22
Annex B (normative) Resistance to gas constituents	24
Annex C (normative) Constant-strain thermal-cycling test	25
Annex D (normative) Validation of fitting design pressure DPF	27
Bibliography	29
