## Carbon fibre - Determination of tensile properties of resin-impregnated yarn

---

| <b>Contents</b>  |   | <b>Page</b> |
|--|---|-------------|
| Foreword .....   |   | iv          |
| 1  | Scope .....                                   | 1           |
| 2  | Normative references .....                    | 1           |
| 3  | Terms and definitions .....                   | 1           |
| 4  | Symbols .....                                 | 1           |
| 5  | Principle .....                               | 2           |
| 6  | Apparatus and materials .....                 | 2           |
| 7  | Test specimens .....                          | 3           |
| 8  | Atmosphere for conditioning and testing ..... | 5           |
| 9  | Procedure for tensile testing .....           | 5           |
| 10   | Expression of results .....                   | 6           |
| 11   | Precision .....                               | 8           |
| 12   | Test report .....                             | 8           |
| Annex A (informative) Examples of heat-curable epoxy-resin systems .....   |   | 10          |
| Annex B (informative) Examples of impregnating apparatus .....             |   | 12          |
| Annex C (informative) Examples of tabs and tab-preparation apparatus ..... |   | 13          |
| Annex D (informative) Examples of extensometers .....                      |   | 15          |
