|--------------------|--|-------------|
| Foreword .....     |  | iv          |
| Introduction ..... |  | v           |
| 1                  | Scope .....  | 1           |
| 2                  | Normative references .....   | 1           |
| 3                  | Terms and definitions .....  | 1           |
| 4                  | Principle .....  | 2           |
| 5                  | Apparatus .....  | 2           |
| 6                  | Test pieces .....  | 4           |
| 6.1                | Preparation of test pieces .....   | 4           |
| 6.2                | Number of test pieces .....  | 4           |
| 7                  | Calculation of test pressure .....   | 4           |
| 7.1                | General .....  | 4           |
| 7.2                | Pressure calculations based on the measured dimensions of the test piece ..... | 5           |
| 7.3                | Pressure calculations based on the nominal dimensions of the test piece .....  | 5           |
| 7.4                | Pressure calculations based on SDR of pipe(s) of the test piece .....          | 5           |
| 8                  | Calibration and accuracy of the apparatus .....                                | 6           |
| 9                  | Conditioning .....   | 6           |
| 10                 | Test procedure .....   | 6           |
| 11                 | Test report .....  | 7           |
