ISO 19212:2006-08 (E)

Adhesives - Determination of temperature dependence of shear strength

Contents

Page

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Methods of test for shear strength 2
4.1 Test method for metals 2
4.2 Test method for wood 2

5 Test atmosphere 2

6 Sampling and handling of adhesives 2

7 Kinds of adhesive and surface preparation of adherends 2

8 Preparation of test specimens 2
8.1 Metal adherends 2
8.2 Wood adherends 2

9 Procedure 2

10 Expression of results 3
10.1 Plot of shear strength versus temperature 3
10.2 Failure patterns 3

11 Test report 3

Annex A (informative) Practical information on the test method 5

Bibliography 7
