

ISO 19212:2006-08 (E)

Adhesives - Determination of temperature dependence of shear strength

Contents		Page
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Methods of test for shear strength	2
4.1	Test method for metals	2
4.2	Test method for wood	2
5	Test atmosphere	2
6	Sampling and handling of adhesives	2
7	Kinds of adhesive and surface preparation of adherends	2
8	Preparation of test specimens	2
8.1	Metal adherends	2
8.2	Wood adherends	2
9	Procedure	2
10	Expression of results	3
10.1	Plot of shear strength versus temperature	3
10.2	Failure patterns	3
11	Test report	3
Annex A (informative) Practical information on the test method		5
Bibliography		7
