

DIN EN 1397:2015-11 (E)

Heat exchangers - Hydronic room fan coil units - Test procedures for establishing the performance

Contents		Page
European foreword		3
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	Designation of fan coil units	6
5	Symbols	6
6	Air flow rate test for ducted units	7
6.1	General conditions	7
6.2	Test installation	7
6.3	Pressure settings	8
6.4	Standard rating conditions	9
6.5	Test procedure	9
6.6	Data to be recorded	10
7	Capacity rating tests	10
7.1	General conditions	10
7.2	Test room	10
7.3	Installation of the test object	11
7.4	Standard rating conditions	11
7.5	Test method	12
7.6	Measurements criteria	13
7.7	Uncertainties of measurement from indicated values	15
7.8	Test duration	15
7.9	Data to be recorded	16
8	Performance tests	17
8.1	General	17
8.2	Test conditions	17
8.3	Sweat test	17
8.4	Condensate disposal test	17
9	Test report	18
9.1	General information	18
9.2	Additional information	18
9.3	Test results	18
10	Manufacturer's data	19
Annex A (informative) Drawings of the different types of configurations of fan coil units		20
Annex B (informative) Air flow rate test for non-ducted units		23
Annex C (normative) Design of separation partition for testing of cassette type fan coil units		25
