

DIN EN 378-1:2008-06 (E)

Refrigerating systems and heat pumps - Safety and environmental requirements - Part 1: Basic requirements, definitions, classification and selection criteria

Contents		Page
Foreword		3
Introduction		4
1	Scope	7
2	Normative references	7
3	Definitions	7
3.1	Refrigerating systems	8
3.2	Occupancies, localities	9
3.3	Pressures	10
3.4	Components of refrigerating systems	11
3.5	Piping and joints	13
3.6	Safety accessories	14
3.7	Fluids	16
3.8	Miscellaneous	17
4	Classification	18
4.1	Refrigerating systems	18
4.2	Occupancies	19
4.3	Designation and Classification of refrigerants	20
4.4	Examples of systems	20
4.5	Special requirements for skating rinks	25
	Annex A (informative) Equivalent terms in English, French and German	26
	Annex B (informative) Total equivalent warming impact (TEWI)	30
	Annex C (normative) Refrigerant Charge Limitations	33
	Annex D (informative) Protection for people who are inside cold rooms	47
	Annex E (normative) Safety classification and information about refrigerants	49
	Annex F (informative) Safety group classifications	55
	Annex G (normative) Special requirements for ice rinks	62
	Bibliography	63
