

DIN 5032-7:2017-02 (E)

Photometry - Part 7: Classification of illuminance meters and luminance meters

| Contents | Page |
|---------------------------------------------------------------------------|-------------|
| Foreword | 3 |
| 1 Scope | 4 |
| 2 Normative references | 4 |
| 3 Terms and definitions..... | 4 |
| 4 Photometer classification..... | 5 |
| 4.1 Calculation of the total characteristic..... | 5 |
| 4.1.1 General | 5 |
| 4.1.2 Calculation of the total characteristic of illuminance meters | 5 |
| 4.1.3 Calculation of the total characteristic of luminance meters..... | 5 |
| 4.2 Classification of photometers | 6 |
| 4.3 Class assignment of a photometer..... | 6 |
| 5 Class limits for classification | 6 |
| 6 Class selection of a photometer..... | 9 |
| 6.1 Measurement uncertainty and class..... | 9 |
| 6.2 Laboratory measurements..... | 9 |
| 6.3 Field measurements | 9 |
