

DIN EN 13032-3:2007-12 (E)

Light and lighting - Measurement and presentation of photometric data of lamps and luminaires - Part 3: Presentation of data for emergency lighting of work places

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	5
4	Essential lamp data	6
5	Luminaire data	7
5.1	Essential luminaire data	7
5.1.1	Luminaire code	7
5.1.2	Normalized intensity table	7
5.1.3	Luminaire maintenance factors (LMF)	8
5.1.4	Luminaire service correction factors (LSCF)- all data shall be declared	8
5.2	Useful luminaire data	8
5.2.1	Physical dimensions of the luminaire	8
5.2.2	Intensity diagram	8
5.2.3	Spacing tables	8
Annex A (informative)	Illuminance calculation on a horizontal plane from a point source	9
Bibliography		10
