ISO 24998:2008-11 (E)

Plastics laboratory ware - Single-use Petri dishes for microbiological procedures

Contents

Page

Foreword iv

1 Scope 1

2 Terms and definitions 1

3 Principle of use 1

4 Types 2

5 Material 2

6 Design and construction 2
6.1 General 2
6.2 Dimensions 2
6.3 Rim on lid 3
6.4 Compartments 3
6.5 Venting 3

7 Performance 4
7.1 Rigidity 4
7.2 Resistance to thermal distortion 4
7.3 Resistance to fracture 4
7.4 Stability in stacking 4

8 Limitation of contamination 4

9 Sterility and special microbiological states 4

10 Packaging 5
11 Marking 5

Annex A (normative) Type test for rigidity 6

Annex B (normative) Type test for resistance to thermal distortion 8

Annex C (normative) Type test for resistance to fracture 9

Annex D (normative) Type test for stability in stacking 10
