| European foreword .....   |   | 4    |
| Introduction .....  |   | 5    |
| 1   | Scope .....   | 6    |
| 2   | Normative references .....                                    | 6    |
| 3   | Terms and definitions .....                                   | 7    |
| 4   | Classification .....  | 8    |
| 5   | Construction .....  | 8    |
| 5.1   | Fire protection .....   | 8    |
| 5.2   | Access opening .....  | 8    |
| 5.3   | Construction materials and surface areas .....                | 9    |
| 5.4   | Weight load .....   | 9    |
| 5.5   | Ventilation .....   | 9    |
| 5.6   | Storage level .....   | 10   |
| 5.7   | Spill containment sump .....                                  | 10   |
| 5.8   | Penetrations for pipes, hoses and electrical cables .....     | 10   |
| 5.9   | Storage levels and doors .....                                | 10   |
| 6   | Fire resistance .....   | 10   |
| 7   | Information to be supplied .....                              | 11   |
| 8   | Marking and labelling .....                                   | 12   |
| 8.1   | Openings for the inlet and outlet air .....                   | 12   |
| 8.2   | Equipotential bonding .....                                   | 12   |
| 8.3   | Labelling of the front .....                                  | 12   |
| Annex A (normative) Type test to determine protection level, hence classification ..... |   | 13   |
| A.1   | Principle .....   | 13   |
| A.2   | Testing apparatus and means .....                             | 13   |
| A.3   | Test models .....   | 13   |
| A.3.1   | Quantity and description of test models .....                 | 13   |
| A.3.2   | Preliminary examination of the test model .....               | 13   |
| A.4   | Preparation of fire test .....                                | 14   |
| A.4.1   | Installation of test model .....                              | 14   |
| A.4.2   | Temperature measuring point placement in the test model ..... | 14   |
| A.4.3   | Temperature measuring device placement in the furnace .....   | 17   |
| A.5   | Test report .....   | 18   |
| A.6   | Technical documentation by the manufacturer .....             | 19   |
| Annex B (normative) Construction alterations .....                                      |   | 20   |
| B.1   | General information .....                                     | 20   |
| B.2   | Construction modifications that shall be assessed .....       | 20   |
| B.2.1   | Subsequent change of outer dimensions .....                   | 20   |
| B.2.2   | Subsequent change of access openings .....                    | 20   |

|   |  |           |
|---|--|-----------|
| B.2.3   | Subsequent variation and extension of interior equipment ..... | 20        |
| B.2.4   | Changes in components and materials .....                      | 21        |
| B.2.5   | Additional penetrations .....                                  | 21        |
| B.2.6   | Additional superimposed load .....                             | 24        |
| B.3   | Test report - Construction alterations .....                   | 24        |
| <b>Annex C (normative) Mechanical and aerotechnical tests .....</b> |  | <b>25</b> |
| C.1   | General information .....                                      | 25        |
| C.2   | Mechanical tests .....   | 25        |
| C.3   | Aerotechnical tests .....                                      | 25        |
| C.4   | Test report - Mechanical and aerotechnical tests .....         | 26        |
| <b>Bibliography .....</b>   |  | <b>27</b> |
