DIN EN 1715-2:2008-07 (E)

Aluminium and aluminium alloys - Drawing stock - Part 2: Specific requirements for electrical applications

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Requirements 4
3.1 Chemical composition 4
3.2 Temper for delivery 5

4 Product inspection and testing methods 6
4.1 Chemical composition 6
4.2 Mechanical properties 6
4.3 Specific electrical resistivity (or conductivity) 6

5 Delivery documents and inspection documents 6

6 Marking and packaging 7

Annex A (normative) Chemical composition of aluminium alloys EN AW-1110, EN AW-8030 and EN AW-8176 8
