

DIN EN 1715-2:2008-07 (E)

Aluminium and aluminium alloys - Drawing stock - Part 2: Specific requirements for electrical applications

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Requirements	4
3.1	Chemical composition	4
3.2	Temper for delivery	5
4	Product inspection and testing methods	6
4.1	Chemical composition	6
4.2	Mechanical properties	6
4.3	Specific electrical resistivity (or conductivity)	6
5	Delivery documents and inspection documents	6
6	Marking and packaging	7
Annex A (normative) Chemical composition of aluminium alloys EN AW-1110, EN AW-8030 and EN AW-8176		8
