

DIN 17611:2011-11 (E)

Anodized products of aluminium and wrought aluminium alloys - Technical conditions of delivery

Contents		Page
Foreword	3
1	Scope	4
2	Normative references	4
3	As-delivered quality	5
4	Designing products for anodizing	6
5	Anodizing	6
6	Requirements	8
7	Testing	9
8	Batching and scope of testing	10
9	Transport, storage and assembly	10
Bibliography	11
Tables	Table 1 -- Surface preparation designation system	7
	Table 2 -- Smallest average and smallest local oxide coating thickness	8
	Table 3 -- Number of test pieces for determining coating thickness	10
