## Lead sulfide concentrates - Determination of lead content - EDTA titration method after acid digestion

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
1	Scope .....	1
2	Normative references .....	1
3	Principle .....	1
4	Reagents .....	2
5	Apparatus .....	4
6	Sampling .....	4
7	Procedure .....	5
8	Expression of results .....	7
9	Accuracy .....	8
10	Test report .....	10
Annex A (normative) Procedure for the preparation and determination of the mass of a predried test portion .....		11
Annex B (normative) Flowchart of the procedure for the acceptance of analytical values for test samples .....		13
Annex C (informative) Derivation of precision equations .....		14
