ISO 22450:2020 (E)

Recycling of rare earth elements — Requirements for providing information on industrial waste and end-of-life products

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Forms of REEs in industrial waste and EOL products

- 4.1 General
- 4.2 In REE magnets
- 4.3 In LEDs
- 4.4 In NiMH batteries
- 4.5 In catalysts
- 4.6 Other REE waste products

5 Classification and codes

6 Recycling information

Annex A (informative) Forms for information exchange

- A.1 Recycling form for REE magnets
- A.2 Recycling form for LED phosphors
- A.3 Recycling form for NiMH batteries
- A.4 Recycling form for polishing agents
- A.5 Recycling form for catalysts
- A.6 Recycling form for laser crystals
- A.7 Recycling form for other REE waste products
