European foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Principle 4

5 Reagents 5

6 Apparatus 10

7 Sampling 11
7.1 General 11
7.2 Test sample 11

8 Procedure 11
8.1 Test portion 11
8.2 Dissolution procedure I with sodium hydroxide solution 11
8.3 Dissolution procedure II with nitric acid and hydrofluoric acid 12
8.4 Dissolution procedure III with a mixture of hydrochloric acid and nitric acid 12
8.5 Dissolution procedure IV with hydrochloric acid 13
8.6 Calibration solutions and drift correction solution 13
8.6.1 General 13
8.6.2 Preparation of the calibration solutions 14
8.7 Measurements 14
8.7.1 Adjustment of the apparatus 14
8.7.2 Measurement of the calibration solutions 14
8.7.3 Measurement of the test solutions 15
8.8 Calibration curves 15

9 Correction of short-term fluctuations and drift 15
9.1 General 15
9.2 Short-term fluctuations 15
9.3 Drift 15

10 Investigation of interferences 15

11 Expression of the results 16
11.1 Correction 16
11.2 Result 16

12 Test report 16

Annex A (informative) Analytical wavelengths 17

Annex B (informative) Plasma optical emission spectrometer -- Suggested performance criteria to be checked 19
