ISO 28401:2024-08 (E)

Light metals and their alloys - Titanium and titanium alloys - Vocabulary

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1
3.1 Material 1
3.2 Classification of phases and related terms 2
3.3 Classification of microstructure by morphology and related terms 2
3.4 Unwrought products 3
3.5 Wrought products 4
3.6 Castings 6
3.7 Methods of processing and treatment 7
3.8 Surface condition 9
3.9 Applications 10
3.10 Types of titanium materials and related terms 10
3.11 Titanium grades and compounds 11

Annex A (normative) Dividing line between unalloyed titanium and titanium alloys 12

Bibliography 14
