

DIN EN 15227:2008-07 (E)

Railway applications - Crashworthiness requirements for railway vehicle bodies

Contents		Page
Foreword		4
Introduction		5
1	Scope	5
2	Normative references	6
3	Terms and definitions	6
4	Crashworthiness design categories of railway vehicles	8
5	Design collision scenarios	9
6	Structural passive safety	11
6.1	General principles	11
6.2	Overriding	12
6.2.1	Requirements	12
6.2.2	Explanatory notes (informative)	12
6.3	Survival space, intrusion and egress	13
6.3.1	Requirements	13
6.3.2	Explanatory notes (informative)	14
6.4	Deceleration limit/collision pulse	14
6.4.1	Requirement	14
6.4.2	Explanatory notes (informative)	15
6.5	Obstacle deflector	15
6.5.1	Requirement	15
6.5.2	Explanatory notes (informative)	16
7	Validation of crashworthiness	17
Annex A (informative) Parameters of design collision scenarios		19
A.1	Introduction	19
A.2	Determining the design collision scenarios for collision risks which differ from the normal European operations	20
A.2.1	Design collision scenarios	20
A.2.2	Risk analysis	20
A.2.3	Factors to be considered in the risk assessment	21
A.2.4	Collisions following derailment	21
A.2.5	Bibliography of relevant accident information	22
Annex B (normative) Requirements of a validation programme		23
B.1	Test specifications	23
B.1.1	Test programme	23
B.1.2	Acceptance criteria for calibration/validation tests	23
B.2	Numerical simulations	24
B.2.1	Numerical model validation	24
B.2.2	Simulation modelling	24
Annex C (normative) Reference obstacle definitions		26

C.1	80 t wagon	26
C.2	C-III Reference obstacle	27
C.3	Large deformable obstacle	29
C.4	C-IV Corner collision obstacle	31
Annex D (normative) Reference train definitions - Defined formations		32
D.1	Reference trains for locomotive, power head, driving trailer and coach design	32
D.2	Locomotive design	32
D.3	Power head and driving trailer design	32
D.4	Individual coach design	33
Annex E (informative) Migration rule for this European Standard		35
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 96/48 as amended by Directive 2004/50/EC		36
Bibliography		37
Figures Figure 1 -- Example for clearance requirement of crumple zones in areas of temporary occupation (e.g. vestibule)		13
