

DIN EN 15611:2010-07 (E)

Railway applications - Braking - Relay valves

Contents		Page
Foreword		4
1	Scope	5
2	Normative references	5
3	Terms and definitions, symbols and abbreviations	5
3.1	Terms and definitions	5
3.2	Symbols	9
3.3	Abbreviations	10
4	Design and manufacture	10
4.1	General	10
4.2	Functional requirements	12
4.2.1	Minimum output pressure	12
4.2.2	Accuracy of the output pressure and changeover	13
4.2.3	Load signal characteristics	13
4.2.4	Enabling of a change of relay valve ratio during brake application of a relay valve of type B1	14
4.2.5	Prevention of a change of relay valve ratio during brake application of a relay valve of type B2 and a variable load relay valve, types C, C1, D, E	14
4.2.6	Kinked characteristic of a variable load relay valve (type E)	14
4.2.7	Interaction of a relay valve and a distributor valve	15
4.2.8	Hysteresis	16
4.2.9	Sensitivity	16
4.2.10	Flow	16
4.2.11	Leakage	16
4.2.12	Change of relay valve ratio	16
4.3	Shock and vibration	17
4.4	Environment requirements	17
4.4.1	General	17
4.4.2	Temperature	17
4.4.3	Other environmental conditions	18
4.5	Compressed air quality	19
4.6	Service life	20
4.7	Fire behaviour	20
4.8	External appearance	20
4.9	Design requirements regarding pressure stress	20
4.10	Interface	20
4.10.1	General	20
4.10.2	Mechanical	20
4.10.3	Pneumatic	20
5	Materials	21
6	Type tests	21
6.1	General	21
6.2	Individual relay valve tests	21
6.2.1	Test bench for individual relay valves	21
6.2.2	Sampling for type tests	24
6.2.3	Test temperature and air quality	24
6.2.4	Procedure for type tests	24

7	Routine test and inspection	47
8	Type-validation	47
9	Documentation	47
10	Designation	48
11	Identification and marking	48
	Annex A (informative) In-service trial	49
A.1	General	49
A.2	Test set-up and sampling	49
A.3	Procedure	49
A.4	Pass/fail criteria	49
	Annex B (informative) Static vehicle and running tests	50
B.1	General	50
B.2	Test recommendations	50
B.2.1	Variable load relay valve	50
B.2.2	Empty/load relay valve	51
	Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 96/48/EC as modified by Directive 2004/50/EC	52
	Annex ZB (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2001/16/EC of the European Parliament and of the Council of 19 March 2001 on the interoperability of the trans-European conventional rail system, as modified by EU Directive 2004/50/EC of 29 April 2004	53
	Bibliography	54
