Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Design and manufacture 5
4.1 General 5
4.2 Functional requirements 5
4.3 Vibration and shocks requirements 7
4.4 Environment requirements 7
4.5 Compressed air quality 10
4.6 Service life 10
4.7 Fire behaviour 10
4.8 External appearance 10
4.9 Design requirements regarding pressure stress 10
4.10 Interfaces 11

5 Materials 11

6 Type tests 11
6.1 General 11
6.2 Individual brake pipe accelerator tests 11
6.3 Simulated train consist tests 17

7 Routine test and inspection 19

8 Documentation 19

9 Designation 20

10 Identification and marking 20

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 96/48/EC, as modified by Directive 2004/50/EC 21

Annex ZB (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2001/16/EC of the European Parliament and of the Council of 19 March 2001 on the interoperability of the trans-European conventional rail system, as modified by EU Directive 2004/50/EC of 29 April 2004 22
