DIN EN 1909:2017-05 (E)

Safety requirements for cableway installations designed to carry persons - Recovery and evacuation

Contents

Page

European foreword ... 3

1 Scope ... 5

2 Normative references ... 5

3 Terms and definitions ... 6

4 Symbols and abbreviations ... 6

5 General requirements ... 6
5.1 Application of this standard ... 6
5.2 Safety principles ... 6
5.2.1 General ... 6
5.2.2 Hazard scenarios ... 6
5.2.3 Safety measures ... 6

6 General requirements for recovery and evacuation ... 7

7 Requirements for informing the passengers ... 7
7.1 Information content ... 7
7.2 Transmission of the Information ... 7

8 Requirements for the recovery of the carriers ... 8

9 Requirements for evacuation of the passengers ... 9
9.1 Provisions common to the various methods ... 9
9.2 Evacuation to the ground ... 9
9.3 Evacuation along the rope ... 10
9.4 Other evacuation methods ... 11
9.5 Equipment for evacuation to the ground ... 11
9.5.1 General requirements ... 11
9.5.2 Requirements specific to equipment for access to the carriers from the ground ... 11
9.5.3 Requirements specific to equipment for access to carriers from line structures and by the rope ... 12
9.5.4 Requirements specific to equipment for descent from carriers ... 12
9.6 Evacuation plan ... 12
9.6.1 Choice of evacuation methods ... 12
9.6.2 Contents of the evacuation plan ... 13
9.6.3 Use of helicopters ... 13

10 Training and instruction of the evacuation personnel ... 13

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2000/9/EC relating to cableway installations designed to carry persons ... 15
