

DIN EN 17084:2020-10 (E)

Railway applications - Fire protection on railway vehicles - Toxicity test of materials and components (includes Corrigendum :2020)

| Contents | | Page |
|-------------------------|--|-------------|
| European foreword | | 4 |
| Introduction | | 5 |
| 1 | Scope | 6 |
| 2 | Normative references | 6 |
| 3 | Terms and definitions | 7 |
| 4 | Principles | 7 |
| 4.1 | Product assessment for toxicity | 7 |
| 4.1.1 | General principles | 7 |
| 4.1.2 | Method 1: Smoke Chamber | 8 |
| 4.1.3 | Method 2: Tube Furnace | 8 |
| 4.2 | Analysis of fire effluents | 8 |
| 5 | Method 1 - Smoke chamber | 9 |
| 5.1 | Gas sampling test apparatus | 9 |
| 5.2 | Calibration | 12 |
| 5.2.1 | General calibrations | 12 |
| 5.2.2 | Chamber leakage test | 12 |
| 5.2.3 | Gas analyser calibration | 12 |
| 5.3 | Test environment | 13 |
| 5.4 | Conditioning of samples | 13 |
| 5.5 | Test specimen preparation | 13 |
| 5.6 | Gas testing | 13 |
| 5.6.1 | Pre-test conditions | 13 |
| 5.6.2 | Testing | 13 |
| 5.6.3 | Operation before each test | 14 |
| 5.6.4 | Operation during a test | 14 |
| 5.6.5 | Operation after each test | 15 |
| 5.7 | Data analysis | 16 |
| 5.7.1 | General | 16 |
| 5.7.2 | Calculation of corrected volume fraction | 16 |
| 5.7.3 | Calculation of time shift | 16 |
| 5.7.4 | Variability of test results | 17 |
| 6 | Method 2 - Tube furnace | 17 |
| 6.1 | Test apparatus | 17 |
| 6.2 | Test environment | 17 |
| 6.3 | Conditioning of samples | 17 |
| 6.4 | Test specimen preparation | 17 |
| 6.5 | Test for gases | 17 |
| 7 | Calculations of CIT | 18 |
| 7.1 | Introduction | 18 |
| 7.2 | Calculation of CITG - Method 1 | 19 |
| 7.3 | Calculation of CITNLP - Method 2 | 20 |
| 8 | Test report | 20 |

| | | |
|---|---|-----------|
| 8.1 | For all product tests (according to Method 1 or Method 2) | 20 |
| 8.2 | For tests according to Method 1 | 21 |
| 8.3 | For tests according to Method 2 | 22 |
| Annex A (informative) Calculations of FED/FEC | | 23 |
| A.1 | Calculation of FED | 23 |
| A.2 | Calculation of FEC | 23 |
| A.3 | Scaling term | 24 |
| A.4 | Reporting | 24 |
| Annex B (informative) Worked Example of Calculation of FED and FEC | | 25 |
| Annex C (informative) Typical calibration procedure using certified gas cylinder | | 40 |
| C.1 | General | 40 |
| C.2 | Set up of apparatus | 40 |
| C.3 | Calibration procedure | 41 |
| Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2008/57/EC aimed to be covered | | 43 |
