

# DIN EN 17084:2020-10 (E)

## Railway applications - Fire protection on railway vehicles - Toxicity test of materials and components (includes Corrigendum :2020)

---

<b>Contents</b>		<b>Page</b>
European foreword .....		4
Introduction .....		5
1	Scope .....	6
2	Normative references .....	6
3	Terms and definitions .....	7
4	Principles .....	7
4.1	Product assessment for toxicity .....	7
4.1.1	General principles .....	7
4.1.2	Method 1: Smoke Chamber .....	8
4.1.3	Method 2: Tube Furnace .....	8
4.2	Analysis of fire effluents .....	8
5	Method 1 - Smoke chamber .....	9
5.1	Gas sampling test apparatus .....	9
5.2	Calibration .....	12
5.2.1	General calibrations .....	12
5.2.2	Chamber leakage test .....	12
5.2.3	Gas analyser calibration .....	12
5.3	Test environment .....	13
5.4	Conditioning of samples .....	13
5.5	Test specimen preparation .....	13
5.6	Gas testing .....	13
5.6.1	Pre-test conditions .....	13
5.6.2	Testing .....	13
5.6.3	Operation before each test .....	14
5.6.4	Operation during a test .....	14
5.6.5	Operation after each test .....	15
5.7	Data analysis .....	16
5.7.1	General .....	16
5.7.2	Calculation of corrected volume fraction .....	16
5.7.3	Calculation of time shift .....	16
5.7.4	Variability of test results .....	17
6	Method 2 - Tube furnace .....	17
6.1	Test apparatus .....	17
6.2	Test environment .....	17
6.3	Conditioning of samples .....	17
6.4	Test specimen preparation .....	17
6.5	Test for gases .....	17
7	Calculations of CIT .....	18
7.1	Introduction .....	18
7.2	Calculation of CITG - Method 1 .....	19
7.3	Calculation of CITNLP - Method 2 .....	20
8	Test report .....	20

8.1	For all product tests (according to Method 1 or Method 2)	20
8.2	For tests according to Method 1	21
8.3	For tests according to Method 2	22
Annex A (informative) Calculations of FED/FEC		23
A.1	Calculation of FED	23
A.2	Calculation of FEC	23
A.3	Scaling term	24
A.4	Reporting	24
Annex B (informative) Worked Example of Calculation of FED and FEC		25
Annex C (informative) Typical calibration procedure using certified gas cylinder		40
C.1	General	40
C.2	Set up of apparatus	40
C.3	Calibration procedure	41
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2008/57/EC aimed to be covered		43
Bibliography		44
