European foreword .....		3
Introduction .....		4
1	Scope .....	5
2	Normative references .....	5
3	Terms and definitions .....	6
4	Design requirements .....	8
5	Technical specification and product approval .....	8
5.1	Introduction .....	8
5.2	Product specification .....	8
5.3	Technical file .....	8
6	Control and monitoring of product .....	9
6.1	Manufacturing process .....	9
6.2	Composition of lubricant .....	9
6.3	Routine tests .....	9
6.4	Additional measures .....	9
7	Technical datasheet .....	9
7.1	General .....	9
7.2	Grease-based lubricant characteristics .....	9
7.3	Oil-based lubricant characteristics .....	9
7.4	Solid-based lubricant characteristics .....	9
8	Packaging, labelling and storage .....	10
Annex A (normative) Requirements for lubricants and testing .....		11
Annex B (informative) Water wash-off test .....		21
Annex C (informative) Corrosion test on steel .....		23
Annex D (informative) Behaviour at an elevated temperature - adhesion on steel sheet .....		25
Annex E (informative) Determination of the volatile constituents in greases .....		27
Annex F (informative) Peak forming and droop .....		29
Annex G (informative) Functional test on specific equipment .....		32
Annex H (informative) Solid flange lubricant stick testing and starvation test on twin-disc machine .....		38
Annex I (informative) Mini Traction Machine creep curve test .....		44
