|-------------------------|---|-------------|
| European foreword ..... |   | 4           |
| 1                       | Scope .....   | 6           |
| 2                       | Normative references .....                                      | 6           |
| 3                       | Terms and definitions .....                                     | 7           |
| 4                       | Design process .....  | 7           |
| 4.1                     | General process .....   | 7           |
| 4.2                     | Design step details .....                                       | 8           |
| 4.3                     | Practical use of the design process .....                       | 8           |
| 5                       | General design requirements .....                               | 8           |
| 5.1                     | Reference points .....  | 8           |
| 5.2                     | General tangency rules .....                                    | 10          |
| 5.3                     | Inputs .....  | 10          |
| 6                       | Geometry design rules (step 1) .....                            | 11          |
| 6.1                     | Introduction .....  | 11          |
| 6.2                     | Speed relationships .....                                       | 12          |
| 6.3                     | Effects of changes in curvature .....                           | 13          |
| 6.3.1                   | Introduction .....  | 13          |
| 6.3.2                   | Change of lateral acceleration .....                            | 13          |
| 6.3.3                   | Types and locations of transitions .....                        | 13          |
| 6.3.4                   | Rules for steady changes in curvature .....                     | 13          |
| 6.3.5                   | Rules for step changes in curvature (virtual transitions) ..... | 13          |
| 6.3.6                   | Rules for special cases .....                                   | 13          |
| 6.3.7                   | Switches and crossings on curves .....                          | 13          |
| 6.4                     | Output .....  | 14          |
| 7                       | Main constructional design (step 2) .....                       | 14          |
| 7.1                     | Introduction .....  | 14          |
| 7.2                     | Inputs .....  | 15          |
| 7.3                     | General requirements .....                                      | 15          |
| 7.4                     | Specific requirements .....                                     | 16          |
| 7.5                     | Structural requirements .....                                   | 18          |
| 7.6                     | Other requirements .....  | 18          |
| 7.7                     | Actuation, locking and detection design .....                   | 18          |
| 7.8                     | Output - Main construction documents .....                      | 18          |
| 7.8.1                   | General .....   | 18          |
| 7.8.2                   | Geometry .....  | 18          |
| 7.8.3                   | Guidance .....  | 19          |
| 7.8.4                   | Actuation .....   | 19          |
| 7.8.5                   | Constructional .....  | 19          |
| 7.8.6                   | Information lists .....   | 19          |
| 8                       | Detailed component design (step 3) .....                        | 19          |
| 8.1                     | Switches .....  | 19          |
| 8.2                     | Crossings .....   | 19          |
| 8.3                     | Expansion devices .....   | 20          |
