DIN EN 15085-5:2023-05 (E)

Railway applications - Welding of railway vehicles and components - Part 5: Inspection, testing and documentation

Contents

Page

European foreword 3

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 Inspection and testing of welded joints 7
4.1 General 7
4.2 Inspection and testing before welding 7
4.2.1 Welding coordination team 7
4.2.2 Welder or welding operator 7
4.3 Inspection and testing during welding 8
4.3.1 Welding coordination team 8
4.3.2 Welder or welding operator 8
4.4 Inspection and testing after welding 8
4.4.1 General 8
4.4.2 Welding coordination team 8
4.4.3 Welder or welding operator 8
4.5 Qualification of visual inspection personnel 8
4.5.1 General 8
4.5.2 Visual Inspection 9
4.6 Requirement for other non-destructive examination personnel 9
4.7 Type and extent of non-destructive testing 9
4.8 First article inspection (FAI) 10
4.8.1 General 10
4.8.2 Requirements for first article inspection (FAI) 11
4.8.3 Documentation requirements of the FAI 12

5 Test planning 12

6 Documentation 13

7 Management of welding defects 13
7.1 General 13
7.2 Non-conformance management process 13

8 Traceability 14

Annex ZA (informative) Relationship between this European Standard and the Essential requirements of Directive (EU) 2016/797 aimed to be covered 15
