

DIN EN 15085-5:2023-05 (E)

Railway applications - Welding of railway vehicles and components - Part 5: Inspection, testing and documentation

Contents	Page
European foreword	3
Introduction	5
1 Scope	6
2 Normative references	6
3 Terms and definitions	7
4 Inspection and testing of welded joints	7
4.1 General	7
4.2 Inspection and testing before welding	7
4.2.1 Welding coordination team	7
4.2.2 Welder or welding operator	7
4.3 Inspection and testing during welding	8
4.3.1 Welding coordination team	8
4.3.2 Welder or welding operator	8
4.4 Inspection and testing after welding	8
4.4.1 General	8
4.4.2 Welding coordination team	8
4.4.3 Welder or welding operator	8
4.5 Qualification of visual inspection personnel	8
4.5.1 General	8
4.5.2 Visual Inspection	9
4.6 Requirement for other non-destructive examination personnel	9
4.7 Type and extent of non-destructive testing	9
4.8 First article inspection (FAI)	10
4.8.1 General	10
4.8.2 Requirements for first article inspection (FAI)	11
4.8.3 Documentation requirements of the FAI	12
5 Test planning	12
6 Documentation	13
7 Management of welding defects	13
7.1 General	13
7.2 Non-conformance management process	13
8 Traceability	14
Annex ZA (informative) Relationship between this European Standard and the Essential requirements of Directive (EU) 2016/797 aimed to be covered	15
