ISO 23019:2022-08 (E)

Railway applications - Driving simulator for drivers' training

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1
3.1 General 1
3.2 Actors 1
3.3 Training functions and training states 2
3.4 Simulated items 3
3.5 Visual characteristics and functions 4
3.6 Simulator items 5

4 Conceptual considerations for simulator 5
4.1 General 5
4.2 Purpose of simulator 6
4.3 Classification of simulators 6
4.4 Simulator operating modes 8
4.4.1 General 8
4.4.2 Training mode 8
4.4.3 Supporting mode 10
4.5 Simulated guided transport system and environment 11
4.5.1 General 11
4.5.2 Simulated train 11
4.5.3 Simulated line and environment 11

5 Required functions and performance for training mode 12
5.1 General 12
5.2 Simulated guided transport system and environment 12
5.2.1 Simulated train 12
5.2.2 Controlled trains and automatic managed trains 13
5.2.3 Simulated line and environment 13
5.3 Perception 15
5.3.1 General 15
5.3.2 Visual system 15
5.3.3 Sound 17
5.3.4 Motion 18
5.4 Control and monitor including training scenario 18
5.4.1 General 18
5.4.2 Control and monitor 18
5.4.3 Training scenario 20

6 Required functions and performance for supporting mode 21
6.1 General 21
6.2 Training administration (training scenario editor, line editor, others) 22
6.2.1 General 22
6.2.2 Training scenario editor 22
6.2.3 Line editor 23
6.2.4 Others 23

6.3 Maintenance administration 23
6.3.1 General 23
6.3.2 Minimum requirements 24
6.3.3 Best practice options 24

7 Required functions and performance for computer system and auxiliary simulator equipment 24
7.1 General 24
7.2 Computer system 24
7.2.1 Minimum requirements 24
7.2.2 Best practice options 25
7.3 Interfaces 25
7.3.1 Internal interfaces 25
7.3.2 External interfaces 25
7.4 Auxiliary simulator equipment 26
7.4.1 Minimum requirements 26
7.4.2 Best practice options 26

8 Requirements for simulator installation 26
8.1 General 26
8.2 Minimum requirements 26
8.3 Best practice options 27

9 Maintainability 27
9.1 General 27
9.2 Minimum requirements 27
9.3 Best practice options 27

10 Data and documents for simulation 27
10.1 General 27
10.2 Minimum requirements 27
10.3 Best practice options 28

Annex A (informative) Reviews 29

Annex B (informative) Acceptance tests 30

Annex C (informative) Documents 31

Annex D (informative) Training for use and maintenance 32
