European foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 Deviations from requirements 9

5 Acceptance process to achieve a standardized running gear status 9
5.1 General 9
5.2 Test requirements 10
5.2.1 Extent of tests 10
5.2.2 Certification 10
5.3 Range of running gear parameters for dispensation from on-track tests 11
5.4 Description of the interface between running gear and vehicle body 13
5.5 Range of vehicle body parameters for dispensation from on-track tests 13

6 Established running gear 15
6.1 General 15
6.2 Wagons with single axle running gear 15
6.2.1 General 15
6.2.2 Double link suspension 15
6.2.3 Long link suspension "Niesky 2" 19
6.2.4 Suspension "S 2000" 21
6.2.5 Permanently coupled units consisting of 2-axle elements 24
6.3 Wagons equipped with 2-axle bogies 24
6.3.1 General 24
6.3.2 Running gear of the family Y25 24
6.3.3 2-axle steering axle bogie family 30
6.3.4 Permanently coupled unit consisting of 2-axle bogie wagons 34
6.3.5 Articulated wagons equipped with three 2-axle bogies Y25 34
6.4 Wagons equipped with 3-axle steering axle bogies 34
6.4.1 General 34
6.4.2 3-axle steering axle bogie 34

Annex A (informative) Symbols 39

Annex B (normative) Approval process for freight wagons related to running behaviour 41

Annex C (normative) Definition of frequency range for suspensions -- Definition of spring characteristic 43

Annex D (normative) Established component double link assembly for 2-axle wagons 45

Annex E (informative) Standardized leaf springs for double link suspension and "Niesky 2" suspension 51

Annex F (informative) Standardized axle guards for double link suspension 53

Annex G (normative) Established components long link assembly "Niesky 2" 54

Annex H (informative) Standardized components for Y25 family of bogies 59

H.1 Springs 59
H.2 Side bearer spring for bogies Y21, Y25 and Y33 60

Annex I (normative) Assembly links for steering axle bogies 62

I.1 General 62
I.2 Assembly rectangle link 62
I.3 Assembly trapezoidal link 65
I.4 Assembly long link 68

Annex J (normative) Inner couplings of a permanent coupled unit 71

J.1 Inner coupling close coupling 71
J.2 Inner coupling bar 72

Annex K (informative) Standardized leaf springs for 2 axle and 3-axle steering axle bogies 74

Annex L (normative) Articulation for articulated wagons equipped with bogies of Y25 family 76
