

DIN EN 847-2:2013-12 (E)

Tools for woodworking - Safety requirements - Part 2: Requirements for the shank of shank mounted milling

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	5
4	List of significant hazards	6
5	Safety requirements	6
5.1	General requirements for cylindrical shank	6
5.2	Stability of the shank of mounted tools	6
5.3	Stability of HSK mounted tools	12
6	Tool marking	14
Annex A (informative) Examples of calculation		16
A.1	Example of a calculation of nshank	16
A.2	Example of a calculation of nHSK	17
Annex B (informative) Method of measuring the eccentricity at clamping devices		18
Bibliography		19
