Cutting tool data representation and exchange - Part 80: Creation and exchange of 3D models - Overview and principles

Contents		Page
Foreword		iv
Introduction		vi
1	Scope	1
2	Normative references	1
3	Designation of design elements	2
3.1	General	2
3.2	Reference system	2
3.3	Planes	4
3.4	Axes	4
3.5	Solid design elements	5
3.6	Level of detail	5
4	Colour settings	5
4.1	Colour setting for the model	5
4.2	Colour setting for the cutting edge line and the cutting part line	6
5	3D model data exchange	7
5.1	General	7
5.2	Structure of the layers	7
6	Data exchange	8
Annex A (normative) Abbreviations -- Preferred symbols		9
