ISO 23700:2021 (E)

Wrought magnesium and magnesium alloys — Rolled plates and sheets

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Orders or tenders

5 Requirements

- 5.1 Designation
- 5.2 Production and manufacturing processes
- 5.3 Quality control
- 5.4 Chemical composition
- 5.5 Dimensional tolerances
- 5.6 Mechanical properties
- 5.7 Surface finish

6 Test procedure

- 6.1 Sampling
- 6.1.1 Sampling for chemical analysis
- 6.1.2 Sampling for mechanical testing
- 6.1.2.1 Location and size
- 6.1.2.2 Orientation of specimens
- 6.1.2.3 Identification of specimens
- 6.1.2.4 Preparation of specimens
- 6.1.2.5 Number of specimens
- 6.1.2.6 Type and location of test pieces
- 6.2 Test methods
- 6.2.1 Chemical composition
- 6.2.2 Tensile test
- 6.2.3 Erichsen test
- 6.2.4 Measurement of dimensions
- 6.2.5 Surface finish
- 6.3 Retests
- 6.3.1 Mechanical properties
- 6.3.2 Other properties

7 Inspection documents

- 7.1 General
- 7.2 Certificate of conformity
- 7.3 Test report
- 7.4 Specific test report

8 Marking

9 Packing

10 Transportation and storage

11 Arbitration tests
