| European foreword ..... |  | 4           |
| Introduction .....      |  | 6           |
| 1                       | Scope .....  | 7           |
| 2                       | Normative references .....   | 7           |
| 3                       | Terms and definitions .....  | 7           |
| 4                       | Designation .....  | 8           |
| 5                       | Order information .....  | 9           |
| 6                       | Manufacture .....  | 9           |
| 7                       | Requirements .....   | 9           |
| 7.1                     | Characterizing properties .....  | 9           |
| 7.2                     | Tensile properties .....   | 9           |
| 7.2.1                   | General .....  | 9           |
| 7.2.2                   | Test pieces machined from samples cut from the bar .....                 | 10          |
| 7.3                     | Hardness properties .....  | 13          |
| 7.4                     | Impact energy .....  | 13          |
| 7.5                     | Graphite structure .....   | 15          |
| 7.5.1                   | Grey cast iron .....   | 15          |
| 7.5.2                   | Spheroidal graphite cast iron .....                                      | 15          |
| 7.6                     | Matrix structure .....   | 15          |
| 7.7                     | Straightness .....   | 15          |
| 7.8                     | Ultrasonic testing .....   | 16          |
| 8                       | Sampling .....   | 16          |
| 8.1                     | General .....  | 16          |
| 8.2                     | Samples cut from a bar .....   | 16          |
| 9                       | Test methods .....   | 16          |
| 9.1                     | Tensile test .....   | 16          |
| 9.1.1                   | General .....  | 16          |
| 9.1.2                   | Tensile test for grey cast irons .....                                   | 16          |
| 9.1.3                   | Tensile test for spheroidal graphite cast irons .....                    | 18          |
| 9.2                     | Hardness test .....  | 19          |
| 9.3                     | Graphite and matrix structure examination .....                          | 20          |
| 9.4                     | Measurement of straightness .....  | 20          |
| 10                      | Retests .....  | 20          |
| 10.1                    | Need for retests .....   | 20          |
| 10.2                    | Test validity .....  | 20          |
| 10.3                    | Non-conforming test results .....  | 21          |
| 10.4                    | Heat treatment of samples and bars .....                                 | 21          |
| 11                      | Inspection documentation .....   | 21          |
| Annex A (informative)   | Guidance values for hardness of spheroidal graphite cast iron bars ..... | 22          |

|   |           |
|---|-----------|
| <b>Annex B (informative) Dimensional raw and machining allowances for continuous cast bars .....</b>                                  | <b>23</b> |
| <b>Annex C (normative) Location of samples cut from a bar .....</b>   | <b>25</b> |
| <b>Annex D (informative) Additional information on mechanical and physical properties of spheroidal<br/>graphite cast irons .....</b> | <b>26</b> |
| <b>Bibliography .....</b>   | <b>29</b> |
