Foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 Ordering information 6

5 Requirements 7
5.1 Production and manufacturing processes 7
5.2 Quality assurance 7
5.3 Chemical composition and tempers 7
5.4 Mechanical properties of castings 8
5.4.1 Mechanical properties of castings under static loading 8
5.4.2 Mechanical properties of castings under cyclic loading 8
5.5 Properties of welded joints 8
5.6 Internal defects 8
5.7 Surface imperfections 8
5.8 Finishing welding 8
5.9 Tolerances on dimensions and form 9

6 Qualification procedures 9
6.1 First-off article approval procedure 9
6.2 Additional qualification procedure 9

7 Sampling and test methods 10
7.1 General 10
7.2 Analysis of chemical composition 10
7.3 Tensile test 10
7.4 Preparation of test pieces for the testing of welded joints 11
7.5 Tensile testing on welded joints 11
7.6 Fatigue testing 11
7.7 Visual inspection 11
7.8 Dye penetrant testing 11
7.9 X-ray examination 11
7.10 Measurement of dimensions 11

8 Traceability 11

9 Marking of products 12

10 Inspection certificate 12

11 Record keeping 12

12 Packaging 13

13 Application and use 13

14 Complaints of non-conformity 13

Annex A (normative) Chemical composition and mechanical properties of EN AC-AlZn10Si8Mg 14

Annex B (informative) Guidelines for application and use 17

B.1 Selection of alloys 17
B.2 Fatigue Design 17
B.3 Welding 17

Bibliography 18
