DIN EN 16339:2013-11 (E)

Ambient air - Method for the determination of the concentration of nitrogen dioxide by diffusive sampling

Contents

Page

Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Principle of the method 7

5 Materials 8

6 Sampling 12

7 Analytical procedure 13

8 Calculation of the concentration of nitrogen dioxide 16

9 Quality control/quality assurance 17

10 Report 18

11 Performance requirements and measurement uncertainty 18

Annex A (normative) Description of samplers 21

Annex B (informative) Other samplers 26

Annex C (informative) Estimation of the uptake rate of the samplers 34

Annex D (informative) Measurement uncertainty 39
