

# DIN EN 16339:2013-11 (E)

## Ambient air - Method for the determination of the concentration of nitrogen dioxide by diffusive sampling

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
Introduction .....		4
1 <b>Scope</b> .....		5
2 <b>Normative references</b> .....		5
3 <b>Terms and definitions</b> .....		5
4 <b>Principle of the method</b> .....		7
5 <b>Materials</b> .....		8
6 <b>Sampling</b> .....		12
7 <b>Analytical procedure</b> .....		13
8 <b>Calculation of the concentration of nitrogen dioxide</b> .....		16
9 <b>Quality control/quality assurance</b> .....		17
10 <b>Report</b> .....		18
11 <b>Performance requirements and measurement uncertainty</b> .....		18
<b>Annex A (normative) Description of samplers</b> .....		21
<b>Annex B (informative) Other samplers</b> .....		26
<b>Annex C (informative) Estimation of the uptake rate of the samplers</b> .....		34
<b>Annex D (informative) Measurement uncertainty</b> .....		39
<b>Bibliography</b> .....		47
