

# DIN EN 17255-2:2020-07 (E)

## Stationary source emissions - Data acquisition and handling systems - Part 2: Specification of requirements on data acquisition and handling systems

---

<b>Contents</b>		<b>Page</b>
European foreword .....		4
Introduction .....		5
1	Scope .....	6
2	Normative references .....	6
3	Terms and definitions .....	6
4	Symbols and abbreviations .....	8
5	Principles .....	8
6	Performance requirements .....	9
6.1	General .....	9
6.2	Data acquisition .....	10
6.2.1	Overview .....	10
6.2.2	Interfaces .....	10
6.2.3	Manual data input .....	11
6.2.4	Remote data logger unit .....	11
6.3	Input data processing .....	11
6.3.1	Validity of input data .....	11
6.3.2	First level data (FLD) .....	12
6.4	Reported data .....	12
6.4.1	General .....	12
6.4.2	Warnings, alarms and violations .....	12
6.5	Reports .....	12
6.5.1	General .....	12
6.5.2	Emission reports .....	13
6.5.3	System reports .....	13
6.6	Data storage .....	13
6.6.1	General .....	13
6.6.2	Time stamping .....	13
6.6.3	Storage of FLD .....	13
6.6.4	Storage of STA .....	13
6.6.5	Storage of standardized STA (SSTA) .....	14
6.6.6	Storage of validated STA (VSTA) .....	14
6.6.7	Storage of QAL3 data .....	14
6.6.8	Storage of warnings, alarms and violations .....	14
6.6.9	Storage of the event-log and configuration parameters .....	14
6.7	System functions .....	14
6.7.1	Event log .....	14
6.7.2	Configuration .....	14
6.7.3	Export of data .....	14
6.7.4	Test mode .....	15
6.8	Data integrity .....	15
6.8.1	DAHS availability .....	15
6.8.2	Tamper-proof data transfer and handling .....	15
6.8.3	Preventing loss of data .....	15
6.8.4	Data back-up .....	15

6.8.5	DAHS identification .....	16
6.8.6	Time management .....	16
6.9	Documentation .....	16
Annex A(informative) Example list of configuration parameters .....		17
A.1	Measurement channel configuration .....	17
A.2	Data processing configuration .....	18
A.3	Data storage configuration .....	19
A.4	Report configuration .....	19
Bibliography .....		20
