DIN EN 17255-3:2021-12 (E)

Stationary source emissions - Data acquisition and handling systems - Part 3: Specification of requirements for the performance test of data acquisition and handling systems

Contents

Page

European foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Symbols and abbreviations 6

5 Performance testing process 6

6 Test procedures 7
6.1 General 7
6.2 Data acquisition 8
6.2.1 Input data 8
6.2.2 Interfaces 8
6.2.3 Manual data input 9
6.2.4 Remote data logger unit 9
6.3 Input data processing 9
6.3.1 Validity of input data 9
6.3.2 First level data (FLD) 10
6.3.3 Implementation of QAL3 10
6.4 Reported data 10
6.4.1 General 10
6.4.2 Warnings, alarms and violations 11
6.5 Reports 12
6.5.1 General 12
6.5.2 Emission reports 12
6.5.3 System reports 12
6.6 Data storage 12
6.6.1 General 12
6.6.2 Time stamping 12
6.6.3 Storage of FLD 12
6.6.4 Storage of STA 12
6.6.5 Storage of standardized STA (SSTA) 12
6.6.6 Storage of validated STA (VSTA) 13
6.6.7 Storage of QAL3 data 13
6.6.8 Storage of warnings, alarms and violations 13
6.6.9 Storage of the event-log and configuration parameters 13
6.7 System functions 13
6.7.1 Event log 13
6.7.2 Configuration 13
6.7.3 Export of data 13
6.7.4 Test mode 13
6.8 Data integrity 14
6.8.1 DAHS availability 14

6.8.2 Tamper-proof data transfer and handling 14
6.8.3 Preventing loss of data 14
6.8.4 Data back-up 14
6.8.5 DAHS identification 14
6.8.6 Time management 14
6.9 Documentation 14
