

DIN EN 17255-3:2021-12 (E)

Stationary source emissions - Data acquisition and handling systems - Part 3: Specification of requirements for the performance test of data acquisition and handling systems

Contents		Page
European foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	5
4	Symbols and abbreviations	6
5	Performance testing process	6
6	Test procedures	7
6.1	General	7
6.2	Data acquisition	8
6.2.1	Input data	8
6.2.2	Interfaces	8
6.2.3	Manual data input	9
6.2.4	Remote data logger unit	9
6.3	Input data processing	9
6.3.1	Validity of input data	9
6.3.2	First level data (FLD)	10
6.3.3	Implementation of QAL3	10
6.4	Reported data	10
6.4.1	General	10
6.4.2	Warnings, alarms and violations	11
6.5	Reports	12
6.5.1	General	12
6.5.2	Emission reports	12
6.5.3	System reports	12
6.6	Data storage	12
6.6.1	General	12
6.6.2	Time stamping	12
6.6.3	Storage of FLD	12
6.6.4	Storage of STA	12
6.6.5	Storage of standardized STA (SSTA)	12
6.6.6	Storage of validated STA (VSTA)	13
6.6.7	Storage of QAL3 data	13
6.6.8	Storage of warnings, alarms and violations	13
6.6.9	Storage of the event-log and configuration parameters	13
6.7	System functions	13
6.7.1	Event log	13
6.7.2	Configuration	13
6.7.3	Export of data	13
6.7.4	Test mode	13
6.8	Data integrity	14
6.8.1	DAHS availability	14

6.8.2	Tamper-proof data transfer and handling	14
6.8.3	Preventing loss of data	14
6.8.4	Data back-up	14
6.8.5	DAHS identification	14
6.8.6	Time management	14
6.9	Documentation	14
	Bibliography	15
