Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Symbols and abbreviations 5
4.1 Symbols 5
4.2 Abbreviations 5

5 Principle 6

6 Measurement planning and sampling strategy 6
6.1 Measurement planning 6
6.2 Sampling strategy 7
6.2.1 General 7
6.2.2 Measurement section and measurement plane 7
6.2.3 Minimum number and location of measurement points 7
6.2.4 Measurement ports and working platform 7

7 Equipment and materials 8
7.1 Gas velocity, temperature, pressure and composition measurement devices 8
7.2 Sampling equipment 8
7.2.1 Sampling system 8
7.2.2 Filtration device 8
7.2.3 Entry nozzle 12
7.2.4 Suction tube for out-stack filtration devices 12
7.2.5 Suction unit 12
7.2.6 Gas metering devices 12
7.3 Dust deposit recovery accessories 14
7.4 Equipment for conditioning and weighing 14

8 Weighing procedure 14
8.1 General 14
8.2 Pre-sampling conditioning 14
8.3 Weighing 15
8.4 Post-sampling treatment of weighed parts 15
8.5 Post-sampling treatment of the rinsing solutions 16
8.6 Improvement of the weighing procedure 16

9 Sampling procedure 16
9.1 Preparation 16
9.2 Filter handling 17
9.3 Pre-measurements 17
9.4 Leak test 18
9.5 Sampling 18
9.6 Recovery of deposits upstream of the filter 19

9.6.1 General 19
9.6.2 Rinsing procedure 20
9.7 Field blank 20

10 Calculation 20
10.1 Sampling volumetric flow rate 20
10.2 Dust concentration 21

11 Measurement report 21

Annex A (informative) Performance characteristics of the method obtained in the method validation 23

Annex B (informative) Influence of the isokinetic rate on the representativeness of the collected particles 25

Annex C (informative) Proven design of the entry nozzles 31

Annex D (informative) Summary of the requirements 33

Annex E (normative)Samplingvolume,flowrateandduration 34

Annex F (informative) Examples of weighing bias 35

Annex G (informative) Determination of the measurement uncertainty 37

Annex H (informative) Thermal behaviour of dusts 51

Annex I (informative)Significanttechnicalchanges 52

Bibliography 53
