DIN EN ISO 16000-1:2006-06 (E)

Indoor air - Part 1: General aspects of sampling strategy (ISO 16000-1:2004)

Contents

Page

Foreword 2

Introduction 4

1 Scope 5

2 Normative references 5

3 Special characteristics of the indoor environment 5

4 Measurement objective 7

5 Sampling procedure 7

6 Time of sampling 8

7 Sampling duration and sampling frequency 8

8 Sampling location 10

9 Parallel outdoor air measurements 10

Annex A (informative) Important types of indoor environment and sources of air pollutants 11

Annex B (informative) Sources of indoor air pollutants 12

Annex C (informative) Examples of substances and their sources 14

Annex D (informative) Guidelines for information to be recorded during indoor air measurement 17
