## Indoor air - Part 1: General aspects of sampling strategy (ISO 16000-1:2004)

---

<b>Contents</b>		<b>Page</b>
Foreword .....		2
Introduction .....		4
1	Scope .....	5
2	Normative references .....	5
3	Special characteristics of the indoor environment .....	5
4	Measurement objective .....	7
5	Sampling procedure .....	7
6	Time of sampling .....	8
7	Sampling duration and sampling frequency .....	8
8	Sampling location .....	10
9	Parallel outdoor air measurements .....	10
Annex A (informative) Important types of indoor environment and sources of air pollutants .....		11
Annex B (informative) Sources of indoor air pollutants .....		12
Annex C (informative) Examples of substances and their sources .....		14
Annex D (informative) Guidelines for information to be recorded during indoor air measurement ....		17
Bibliography .....		25
