

# DIN EN 200:2008-10 (E)

## Sanitary tapware - Single taps and combination taps for water supply systems of type 1 and type 2 - General technical specification

---

<b>Contents</b>		<b>Page</b>
Foreword .....		5
Introduction .....		6
1 Scope .....		7
2 Normative references .....		11
3 Designation .....		11
4 Marking and identification .....		12
5 Materials .....		13
6 Dimensional characteristics .....		14
7 Sequence of testing .....		24
8 Leaktightness characteristics .....		25
9 Pressure resistance characteristics - mechanical performance under pressure .....		31
10 Hydraulic characteristics .....		33
11 Mechanical strength characteristics - torsion test for operating mechanism .....		36
12 Mechanical endurance characteristics .....		37
13 Backflow protection .....		45
14 Acoustic characteristics .....		45
Bibliography .....		51
Annex A (informative) Pressure take-off tee .....		47
Figure 1 - Supply system of Type 1 with a pressure range of (0,05 to 1,0) MPa [(0,5 to 10) bar] .....		9
Figure 2 - Supply system of Type 2 with a pressure range of (0,01 to 1,0) MPa [(0,1 to 10) bar] .....		10
Figure 3 - Bib taps $\frac{1}{2}$ and $\frac{3}{4}$ - Single-hole taps $\frac{1}{2}$ .....		16
Figure 4 - Multi-hole combination taps .....		17
Figure 5 - Supply connections for taps and remote outlets .....		17
Figure 6 - Pillar and bib taps .....		20
Figure 7 - Remote outlet .....		21
Figure 8 - Single hole combination tap .....		21

<b>Figure 9 - Bath/shower combination tap</b> .....	<b>21</b>
<b>Figure 10 - Single hole combination tap</b> .....	<b>23</b>
<b>Figure 11 - Two hole combination tap (fixed centres)</b> .....	<b>23</b>
<b>Figure 12 - Three hole combination tap (adjustable centres)</b> .....	<b>24</b>
