

DIN 11866:2016-11 (E)

Stainless steel components for aseptic applications in the chemical and pharmaceutical industry - Tubes

Contents		Page
Foreword		3
1 Scope		4
2 Normative references		4
3 Dimensions and pipe ends		4
3.1 Dimensions and tolerances.....		4
3.2 Tube straightness		6
3.3 Tube ends		6
4 Designation, ordering details.....		7
4.1 Designation		7
4.2 Ordering details		7
5 Materials		7
6 Surface finish and execution.....		8
7 Testing and documentation.....		9
8 Acceptance criteria		9
9 Marking		11
10 Packaging and transportation		11
Annex A (informative) Delta ferrite content		12
Annex B (informative) Comparison of materials.....		13
Annex C (informative) Guidelines for application of this standard.....		14
Bibliography		15
