ISO 16232-6:2007-06 (E)

Road vehicles - Cleanliness of components of fluid circuits - Part 6: Particle mass determination by gravimetric analysis

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Principles 1

5 Equipment and rinsing liquids 2

6 Environment conditions and precautions 2
6.1 Work environment 2
6.2 Health and safety 3

7 Lower detection limit for gravimetric analysis 3

8 Preparing the apparatus 3
8.1 Conditioning of equipment 3
8.2 Preparing the membrane filters 4

9 Procedure 4
9.1 Evaluation of the procedure 4
9.2 Liquid analysis procedure 4

10 Reporting the results 5
10.1 Calculating the mass of contaminants 5
10.2 Reporting of the level of contamination of the component 5

11 Test report 6

Annex B (informative) Filtration 9

Bibliography 10
