ISO 22900-1:2008-03 (E)

Road vehicles - Modular vehicle communication interface (MVCI) - Part 1: Hardware design requirements

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Abbreviated terms 2

5 Specification release version information 3
5.1 Specification release version location 3
5.2 Specification release version 3

6 Use cases 3
6.1 OEM merger 3
6.2 Compatibility between VCIs from after-market tool suppliers 3
6.3 Future vehicle technology and data link(s) 4

7 Modular VCI concept 4
7.1 Compliance levels 4
7.2 Tier 1 Modular VCI software compliance (SC) 4
7.3 Tier 2 Modular VCI electrical compliance (EC) 5
7.4 Tier 3 Modular VCI mechanical compliance (MC) 6
7.5 Difference between software (SC) and electrical compliant (EC) MVCI Protocol Modules 7

8 Modular VCI compliance levels, hardware configurations and design requirements 8
8.1 General 8
8.2 Modular VCI "minimum compatibility" requirement matrix 8
8.3 Software compliance (SC) level design requirements 9
8.4 Electrical compliance (EC) level design requirements 12
8.5 Mechanical compliance (MC) level design requirements 16
8.6 Data Link Connector (DLC) cable and connector 21

9 Programmable power supply 26

10 General electrical requirements 27
11 General environmental durability requirements 27

Bibliography 28
