

ISO 22900-1:2008-03 (E)

Road vehicles - Modular vehicle communication interface (MVCI) - Part 1: Hardware design requirements

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	2
4	Abbreviated terms	2
5	Specification release version information	3
5.1	Specification release version location	3
5.2	Specification release version	3
6	Use cases	3
6.1	OEM merger	3
6.2	Compatibility between VCIs from after-market tool suppliers	3
6.3	Future vehicle technology and data link(s)	4
7	Modular VCI concept	4
7.1	Compliance levels	4
7.2	Tier 1 Modular VCI software compliance (SC)	4
7.3	Tier 2 Modular VCI electrical compliance (EC)	5
7.4	Tier 3 Modular VCI mechanical compliance (MC)	6
7.5	Difference between software (SC) and electrical compliant (EC) MVCI Protocol Modules	7
8	Modular VCI compliance levels, hardware configurations and design requirements	8
8.1	General	8
8.2	Modular VCI "minimum compatibility" requirement matrix	8
8.3	Software compliance (SC) level design requirements	9
8.4	Electrical compliance (EC) level design requirements	12
8.5	Mechanical compliance (MC) level design requirements	16
8.6	Data Link Connector (DLC) cable and connector	21
9	Programmable power supply	26
10	General electrical requirements	27
11	General environmental durability requirements	27
