Intelligent transport systems — Basic principles for personal data protection in probe vehicle information services

Contents

Page

| | |
|--|----|
| Foreword | iv |
| Introduction..... | v |
| 1 Scope | 1 |
| 2 Normative references..... | 1 |
| 3 Terms and definitions | 1 |
| 4 Privacy context for probe vehicle systems | 4 |
| 5 Reference architecture..... | 5 |
| 6 Personal data included in probe vehicle systems | 6 |
| 6.1 Personal data | 6 |
| 6.2 Encryption data that can become personal data | 7 |
| 6.3 Authentication data that can become personal data..... | 8 |
| 7 The basic principles | 8 |
| 7.1 General | 8 |
| 7.2 Collection limitation principle | 8 |
| 7.3 Data quality principle | 9 |
| 7.4 Purpose specification principle | 9 |
| 7.5 Use-limitation principle..... | 10 |
| 7.6 Security safeguards principle | 10 |
| 7.7 Openness principle | 10 |
| 7.8 Individual participation principle | 10 |
| 7.9 Accountability principle..... | 10 |
| Annex A (informative) Threats to personal data in probe vehicle systems..... | 11 |
| Bibliography..... | 23 |
